Gathering into Community through Sacred Circle Dance Friday May 13 7:30 pm – 9 pm

Joining in the Dance is a popular way of creating community around the world. We will use gentle, well-taught steps to bring our group into oneness and community for the weekend. No partners needed, even two left feet can move in the same direction as the group. Dances are taught fully before adding music. We will explore gentle simple circle dances.

Modern Megalithic Geomancy

Saturday May 14 9:30 am – 5 pm

- 1) Designing and Building Modern Stone Circles - Stone Circles are an ancient technology that still works in this day. Ivan will discuss some of the 27 full-sized stone circles he has designed and built. He will describe the intent behind each circle and the ways of working with the spirit of the Earth to help and heal. All the previous will be illustrated by some amazing photos.
- 2) Dragons! Dragons are huge forces of nature. Druids and modern Geomancers *will* meet them, and so it is essential to understand and learn how to communicate with them. This session will be both a serious and light-hearted exploration of dragons: what they are, how to build relationship with them, work with them, summon them, and how to ride on their backs into the stars.
- 3) Build a Living, Human Stone Circle - We will go outside and to build a stone circle. We will then journey to the realm of stones to find our 'inner stone'. We will return with our stone and make an alive, human stone circle, which will become a collective power spot on the earth. We will then conduct a healing ceremony, directing earth energies to places that need healing.
- 4) Create a Dream Temple - It is useful to create a long-lasting temple that is invisible, yet a real power spot on the Earth's surface. Depending on its intent and dedication, the circle will generate the energy to fulfill its purpose, and it can be programmed to dissolve once that purpose has been met. Using the energy we have already generated in the workshop so far, we will create a dream temple that will continue to function after we have left. It will function for as long as necessary, for a purpose we will discover together.
- 5) Completion of the workshop including any questions, psychic cleansing and grounding.
