## **“Beyond The Four Agreements”**

**Conference Day: Friday, Sept 27, 7-9pm**

*The Four Agreements* is a life changing book for many people. What makes this book powerful is that it provides a common sense explanation for the emotional drama that troubles us and simple principles for change. While simply presented, it does not mean changing our negative thoughts and emotions into positive ones is easy. Fortunately, there are practical techniques one can apply to accelerate our conscious and emotional growth. When applied, these techniques open us up to experience an authentic love and joyfulness that was naturally ours as children.

**“Susan Mann”** Susan is a nurse who has worked in BC, NWT, Nunavut, and the Yukon, and for the past three years has done volunteer nursing work in Nepal and India.

## **“In the Shade”**

**Conference Day: Saturday, Sept 28, 4-5:30pm**

While in Nepal Susan met a woman who started 38 schools throughout midwestern Nepal, to teach the ‘poorest of the poor’ children to read and write Nepali, to ready them for full time school. These children would never have gone to school, as education is not considered important for their subsistent farming families. They had a good chance of being SOLD by their families into prostitution and the circuses in India, never to be seen again.

The program is called **CHHAHARI** which means ‘in the shade’. The classes take place for two hours a day, six days a week, under the shade of a huge tree. These classes are the only way to prevent the sale of these children, as they become an asset by establishing a small family business.

Hearing of Susan’s first hand experiences with this program will be an education for us all.

**“Ron LaPlace”** After 30 years of studying metaphysics, Ron found a way to bring all of that information **home to the heart** in 1998, when he discovered the MerKaBa meditation and the science of sacred geometry in Drunvalo Melchizedek’s **Flower of Life** courses. The years since have been spent deepening the relationship between the heart and the mind, and teaching others about the unity of all life through Drunvalo’s Flower of Life, and now, **Awakening the Illuminated Heart** classes.

***“The Power of Creating In a Time of Shift and Change”***  
**Conference Day: Saturday, Sept 28, 7-9pm**

Experience a basic understanding of how we have created the world in which we live, and why we are on a pathway that is not sustainable. We can change the way in which we create and thereby change the world. A simple understanding of the steps required will lead to our ability to dream a new dream. It is not too late. In fact, it is all happening in perfect time. We are remembering who we are. Would you like to begin? [www.ronlaplace.com](http://www.ronlaplace.com)

We feel trapped behind false beliefs and negative thoughts of the ego mind. To change this and experience happiness requires more than good intentions. You have to inventory and dismantle the false beliefs that make up the ego. Without tools and practices, the wall of negative thoughts and emotional reactions persist. In this workshop you will learn and use practical methods to dismantle fears and false beliefs trapping you and keeping you from feeling the love and happiness that you really want.

**Ron LaPlace** **Sacred Geometry and Dreaming the New Dream:**  
*“What Did We Forget That Is Affecting Our Future?”*  
**9am-1pm**

Sacred Geometry is a powerful tool for demonstrating the unity of all life. Because it is a constant in all of life it can be used to predict the future, or, if we are unsure of our past it can also guide us to re-member this part of ourselves.  
 Join us for a discussion of our past history and how this is affecting everything we are manifesting in our world today. What have we forgotten and how can we use this information to create positive change?
