Nigel's elegantly transformative teachings have helped thousands around the world become more consciously connected with their Divine Source. When we incarnate into physical form on the Earth plane, we carefully choose the time and place of our birth in order to set into motion the particular influences of the particular archetypes that we need for the Soul Growth of that lifetime. We have the means at our disposal to take even what we perceive as the most negative of experiences and life patterns, and through an understanding of the particular archetypes that are driving the event, establish a new and more productive relationship with the archetype(s). This presentation will touch on how to accomplish creating a new relationship with the archetypes, as outlined in the ground-breaking program “It Depends on Who’s Looking”.

**Dennis Barnett ~ Edmonton, AB Califon, NJ**

Born in Penticton B.C, Dennis grew up on an isolated ranch in southern Saskatchewan, where some of his earliest memories are of sitting inside ancient stone tipi rings, watching a red tailed hawk circling above and feeling the energy of the earth, the stones, the memory of the old ones and feeling connected to and being one with everything. From those early memories grew a lifelong fascination with energy and its role in our lives and to his becoming a healer and teacher. [www.healingnexus.com](http://www.healingnexus.com)

● **Conference Presentation:** “Assemblage Point - Introduction”. The conference presentation will be an abbreviated version of the Assemblage Point Workshop on Sunday. For those of you who have not yet experienced the adjustment and are energy workers or have a health related practice of any sort, it is of great importance to learn this modality. What you will be able to bring to your clients and practice will astound you and them. The work you do will be more effective and your results will be longer lasting when you begin with a balanced Assemblage Point in your client.

● **Sunday Workshop ~ “Assemblage Point”** You can learn how to find and adjust the Human Assemblage Point for the benefit of your friends, family and clients. I have found that most people have Assemblage Points that are out of alignment and that the correct position of the Human Assemblage Point is so vital to the well being of the client and also to the success of other healing modalities, that I now begin most sessions with this important adjustment.

We are at the doorway of an exciting time of discovery and change in Energy Medicine and Healing. Today, instead of looking at our bodies as living machines, we know they are a gigantic network of energy; the place where spirit, matter,

and power connect. In other words the body is the “Nexus Point” for all of those things.

The position of our Assemblage Point, a vital energy vortex in the body, is a primary determinant on our state of health, affecting not only “how we feel” but “how we behave”. Consciousness exists past the boundaries of our physicality. When we access the quantum biological energy fields which surround all living beings, it becomes possible to treat disease both physical and mental in exciting new and non-invasive ways.

In the workshop you will:

- Locate and experience your own Assemblage Point as well as several ways to locate the Assemblage Point on your clients.
- Discover how the position of the Assemblage Point controls how we feel and behave.
- Learn how to shift and relocate the Assemblage Point to improve mental and physical performance and accelerate personal growth. Relieve stress, anger, anxiety, panic, and depression and improve life force energy.
- Discover how shock, stress, illness, trauma, violence and all sorts of non-beneficial events shift the Assemblage Point to detrimental locations and cause physical and/or mental illness.
- Learn the different Assemblage Point Locations associated with various physical and psychological diseases and how the endocrine system is affected.
- Find out how alcohol, illegal drugs and prescription drugs and can shift the Human Assemblage Point to dangerous locations.
- Discover how to shift and correct the Assemblage Point Location to assist and minimize the effects of drugs and alcohol addiction.
