

# THE GREAT AWAKENING CONFERENCE

## How Dowsing Can Help in Developing Intuition? with Alicja Aratyn

Intuition is not something given to some but rather is an inseparable part of all humans. Most people, though, listen to their intuition sporadically and even less frequently follow it. Some of us use intuition to solve our problems, make important life decisions, etc.

In the Aquarius Age, the Age of the Mixture of Knowledge and Spirituality, the number of people seeking to deepen their connection to their intuition has increased. Not all of us are aware, though, that dowsing and its proper tools can help us enhance this connection.

Please, bring your pendulums as we will dowse! If you do not have any Therapeutic Pendulums, we will have some available for purchase if you wish.

### About Alicja

Over the last 35 years, Alicja has taught, led, inspired, treated, and consulted people who aspire to the next level of awareness. As a natural-born healer, she shares her gift generously. Alicja is a professional trained Chemist, a Master's in Environmental Engineering, and a Reverend with a Doctorate in Metaphysics.

Her unique blend of science and spirituality, stemming from her engineering background and early interest in esotericism, that has led her to understand current holistic healing. She continuously creates online courses, based on her personal contacts with beings from 'the other side', teaching in a way that uniquely combines spirituality and self-development with today's cutting-edge science and ancient knowledge of vibrations and universal energy rules. With the assistance of her spiritual being friends, Alicja is able to see energy and remove disturbances from past lives, harmful energy forms, etc. This unique ability has helped people worldwide bring about positive changes and desired effects in their lives. She developed her own, unique system called "Science of Dowsing" which she shares with people around the world.
