

THE GREAT AWAKENING CONFERENCE

The Reality of Contact: Non-Human Intelligence and the Future of Humanity with Brian Ruhe

Brian will explore the possibility that contact with non-human intelligence is not a rare or isolated event, but part of an ongoing and structured phenomenon. Building on patterns found in global UFO encounters and contact reports, he examines what these experiences may reveal about the nature, intent, and capabilities of these intelligences. The talk moves beyond theory to explore the lived reality of contact, including communication methods, the role of consciousness, and the consistency of reported interactions across cultures and decades. Through selected cases and analysis, Brian presents a grounded but far-reaching interpretation of what may be occurring.

This presentation also addresses the broader implications: if contact is real and ongoing, what does this mean for humanity's future, our understanding of consciousness, and our place in a larger cosmic context?

About Brian

Brian Ruhe is a Vancouver-based ufologist, researcher, and former Theravāda Buddhist monk. Since 2006, he has studied UFO phenomena, extraterrestrial contact, and consciousness, producing over 3,500 videos and hosting interviews with leading voices in the field, including Richard Dolan, Stanton Friedman, and Clif High.

He is the author of *An ET Hypothesis with Sources*, a structured framework exploring the possibility of long-term interaction between humanity and non-human intelligence. Brian also leads the Vancouver UFO & Preparing for Contact Meetup, where he focuses on the intersection of UFO phenomena, human evolution, and consciousness.
