

THE GREAT AWAKENING CONFERENCE

The Sasquatch People and Their Interdimensional Connection with Kewaunee Lapseritis

Kewaunee will discuss all the evidence and personal experiences that indicate that the Sasquatch are not animals or monsters but a spiritually evolved nature people. Personally, he has been in telepathic communication with them for "47" years now and they refer to him as "family". There are "9" Sasquatch on the wilderness property where he lives and who check on him daily. He will give several examples of what they are saying with some fascinating encounters including powerful healings that they did for him and others.

About Kewaunee

Kewaunee is a social scientist with four degrees. Early on in his career he was an Associate Professor teaching Anthropology at a New England college. In 1973, he conducted an Ethnographic study doing field work living among the Tukuna Indians of Upper Amazonia in conjunction with the Columbia Institute of Anthropology – Bogota. In 1968, he investigated the yeti in the Himalayas. His two books describe in-depth Sasquatch behavioural dynamics and who they really are and how the so-called "expert's" theories are one hundred percent wrong with their assessment. Kewaunee's interest in Medical Anthropology led him to study with a traditional Ojibwe medicine woman studying shamanism and herbology and for 50 years he worked as a Holistic Health Consultant/Master Herbalist/Hypnotherapist.

He has also interacted with "6" different races of ETs who have approached him. On February 2014, he was taken aboard a space-ship (not kidnapped) where the friendly ETs restructured his DNA. In 1991, four ETs came to him when he was dying of liver cancer and told him how to heal himself.
