### Keynote Speakers

**Dawn Clark** is a futurist, author, international speaker, and faculty member at The Omega Institute. A lifelong sensitive, Dawn's broadband perceptual abilities were put to task after a series of near-death encounters. In the wake of these insights, she has pioneered groundbreaking systems for healing and empowerment. Dawn trains therapists in her modalities and has guided individuals, Emmy Award winners and clients with 2010 Olympics, Wall Street Journal Online, and more. Dawn's upcoming novel is a mainstreamed application of her transformational work and is currently being considered for a major motion picture production. Keynote Address: **The Truth Behind Reality: Decoding the Relationship Between Heart and Wealth Creation** We all have the inherent ability to create prosperity, yet most of us struggle. Standing at the nexus of science and spirituality, Dawn will map the hidden operating system between Heart and sustainable wealth. Trauma, life experience and acculturation can create virtual viruses that plague our inherent operating systems and prevent us from creating the life of our dreams. These viruses override any type of positive talk we might be trying to employ, leaving us frustrated. Discover how to get unstuck and reclaim your power.

### Post Conference Workshop: **Repairing the DNA of Soul: 10<sup>th</sup> Power Access to Prosperity**

Combining science with spirituality, Dawn maps the uncharted territory of "Slip Time" revealed to her in her near-death experience and delivers powerful tools for change. This program is for everyone who wants to learn how to get behind the steering wheel of life and create a better tomorrow.

- Get unique tools for moving past FUD (fear, uncertainty and doubt)
- Discover how to activate your dormant potential in all areas of life
- Map your meta-programming to realize what's holding you back
- Learn how to construct multi-scenario outcome projections to redefine your future
- Find out how to apply probability tunneling to better materialize

You will learn how the constructive power of heart intelligence takes you to the next level and empowers you to begin creating the life you've always wanted.

**Keynote Address: A Species with Amnesia** It's often been said that those who forget the lessons of the past are doomed to repeat them. But what if we have forgotten an entire, hugely important episode in human history? Myths and legends from all over the world insist that a great civilization that was technologically advanced, powerful and wise existed in deep antiquity but was wiped from the face of the earth when it "angered the gods". In this lecture, Graham Hancock makes the case for a lost civilization destroyed in a global cataclysm at the end of the last Ice Age around 12,500 years ago and argues that our civilization, too, despite its technological prowess, might be poised on the brink of becoming the next Atlantis.

**Post Conference Workshop: The Supernatural and Human Evolution** Less than 40,000 years ago humans had no art, no religion, no sophisticated symbolism, and no innovative thinking. Then, in a dramatic and enigmatic change, the skills and qualities that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. In this workshop, Graham investigates this mysterious turn of events, described as "the greatest riddle in archaeology", and explores the influences that gave birth to the modern human mind.

Through a series of lectures and discussions, we:

- learn about the development of modern human consciousness;
- gain insights into the latest scientific findings concerning the role played by shamanic altered states of consciousness in the imagery of supernatural beings painted on the walls of prehistoric caves around the world;
- examine the range of techniques shamans from different cultures have developed to enter and manipulate altered states of consciousness;
- learn about a new perception of the brain not only as a generator of consciousness but also as a receiver of consciousness;
- explore the intriguing interconnections between the beings shamans refer to as "spirits," medieval Europeans knew as "fairies," and developed countries today construe as "aliens" or "grays"; and
- investigate the links between ancient Egyptian spirituality and shamanistic inquiries into the mysteries of life after death.

This intriguing workshop is for anyone interested in shamanism, human evolution, and the nature of consciousness and reality.

#### Conference Presentation: **Meeting Orbs in Sacred Space**

What are orbs? Are there different kinds? Why are they showing up now in photographs? How can I take a photograph of an orb? What is the science behind these energy phenomena? How can I open up a dialogue with them? Susan will present some of the thousands of photographs of different orb structures that she and her colleagues have taken over the past years.

**Evening Orb Experience:** Bring your digital camera and an open mind. Susan will lead an informal orb walk – details will be announced.

Post Conference Workshop: **Modifying Unhealthy Patterns with Dowsing** Are there things in your life you'd like to change, but you just can't seem to do it no matter what? Relationship issues? Weight control? Career blockages? Addictive behaviours? Emotional fatigue? Whatever the issue is, simple dowsing techniques can often quickly and gently identify and modify many unhealthy behaviour patterns and get you back on track. This experiential workshop will offer dowsing protocols to assist in finding the originating sources of both conscious and unconscious patterns. As well, protocols will be used to neutralize behavioural triggers, and to transform energies to create healthy patterns leading to stable balance and harmony in your life. We will actually do this work in the class, so come prepared with a list of your issues and let's get to work. A basic knowledge of dowsing is all that is needed.

**Roger Joyeux** is the incarnation of a soul that has been on Earth since time began. In this lifetime, his service is to bring forth the body of knowledge that is his new book *The Story of Light, Through Heaven's Gate*. In the 1990s, he awakened to his spiritual path starting with Siddha Yoga and a trip to Gurumayi's Ashram in India. Roger began channelling The Great White Brotherhood, and soon after, The Councilate of the Ascended Light and is a conscious channel for the Ascended Masters. Roger works extensively with crystals, conducts workshops, and offers personal sessions. Currently, he lives in Calgary with his wife, Judy, with whom he is half of [www.AngelsandAncestors.com](http://www.AngelsandAncestors.com) E-mail: [srjoyeux@gmail.com](mailto:srjoyeux@gmail.com) web address: <http://thestoryoflight.com>

Conference Presentation: **Emotional Body Clearing and Healing** Roger will explain the design of the emotional body - the emotions are not the emotional body. By discerning the two and by building the construct of the emotional body for the aware and conscious mind to comprehend, you can wilfully overcome the difficulties that arise from an imbalanced emotional charge, and you can wilfully use the emotional body for desirable positive outcomes. The emotional body is a valuable innovation to empower individuals, but it can be the downfall just as easily. After presenting the mind with how it all works, he will then lead you through spiritual exercises that will help you clear and heal the negative emotional patterns of an imbalanced emotional body that may be causing you problems. Prepare yourself for an entirely different perspective on understanding the emotional body and the flow of emotional energy.

**Jeff Volk** is a poet, producer and publisher. In 1984, he produced a series of videos highlighting the pioneering work of Swiss scientist, Dr. Hans Jenny, some 20 years earlier. Jenny's experiments in *Cymatics*, scientifically demonstrated how audible sound can create harmonic, geometric patterns similar to those found in forms of nature, and throughout the sacred art and architecture of the world's Great Traditions. In 1993, Volk's documentary, *Of Sound Mind and Body: Music and Vibrational Healing*, won the Hartley Film Award through the Institute of Noetic Science, and its phenomenal success inspired him to produce The International Sound Colloquium, which was to become the premier conference exploring the power of sacred sound and healing music throughout the 1990's. Website: [www.cymaticsource.com](http://www.cymaticsource.com). E-mail: [jeffvolk@rcn.com](mailto:jeffvolk@rcn.com)

Conference Presentation: **Cymatics: Insights into the Invisible** *Cymatics*, the science of wave formations, empirically demonstrates how sound generates intricate geometric patterns and dynamic processes, revealing how vibrations interact to create the world we perceive. We'll witness audible sound frequencies shaping inert powders, pastes and of course, water, into lifelike, flowing forms, such as flowers, plants and animals. This presentation provides an overview of the science of Cymatics, explaining the principles behind dowsing, and laying the foundation for the post conference session that will focus on applying these principles portrayed by Cymatics, in our daily lives.

Post Conference Workshop: **Cymatics: The Experience! Vibration • Creation • Transformation**

The Cymatics phenomena reveal several key principles that apply to all levels of experience, creating the lens through which we perceive our world and thereby, our experience of life. This wide-ranging program combines poetry and music, introspective exercises and a coherent scientific method to demonstrate pragmatic spiritual principles. It is accessible to anyone with a willingness to entertain the inconceivable: that you can be all you imagine yourself to be, and nothing more!
